THURSDAY MORNING.

## KIEV TRIAL DEPLORED.

Clergy and Laity Voice Protest.

Episcopalians Score the Ritual Murder Charge as a Relic of Dark Ages.

Compare Action of Russians to Early Persecutions of Christians.

Convention May Eliminate Classification of Jews With Infidels.

**NY A. P. NIGHT WIRE TO THE TIMES**  
**N**Y MURDER TRIAL AT KIEV, Russia, was condemned in a resolution adopted today by the house of deputies of the Protestant Episcopal Church at its triennial general convention. The Episcopalians also took steps to amend the language in the Good Friday collects where Jews are classed with "infidels." Thus endeth.

In presenting the resolution regarding the Kiev trial, the Rev. Dr. William T. Manning, rector of Trinity Church, New York, said:

"Jews in this city are deeply moved by this matter. Jewish brethren have asked me to bring before this convention a protest voicing the sentiments of our people. We have at one time, it is alleged, she threatened to kill."

Since 1895, Mrs. Mackay avers that her personal counsel, Arthur C. Tracy, Mrs. Mackay denies

of Mrs. Blake's allegations in a formal answer filed in the Supreme Court and characterizes Mrs. Blake as one who has a "jealous disposition, an unmerciful temperament, and no affection or love for her husband." At that time, it is alleged, she threatened to kill.

THE RESOLUTION.

The resolution said:

"We call upon the archbishops, bishops and other members of the Holy Orthodox Eastern church of Russia to make formal pronouncements that charges of so-called ritual murders are without foundation or justification in the teachings and practice of the religion of Jesus Christ. We further declare that in the early days of Christianity similar charges were made by ignorance and superstition against our own saints and religion."

The Committee on Prayer Book of the house of deputies reported favorably on a proposition to amend the third collect in the Good Friday service by striking the words "Jews, infidels, Turks and heretics" from the general prayer for humanity. Consideration of the committee's report was postponed, however, to permit discussion of a proposal of a committee which proposed that this prayer be offered for "the ancient Jews and all adherents."

Bishops voted that the commission on faith and order be incorporated so that it might be free to receive bequests of money. The Social Service Commission held a mass meeting tonight in the Cathedral of St. John the Divine, whose address were delivered on "the church and the social movement."

LIST OF SPEAKERS.

The speakers included Bishop Lawrence, Bishop Spaulding of Utah and Bishop McElroy of Providence, R. I.

Three of the western bishops went into the financial districts this afternoon and preached at the corner of Wall and Broad streets, where Dr. Wilson, former bishop of the Diocese of Wall Street, has his holding services for the last nine years.

The bishops who spoke at Dr. Williamson's invitation were: James R. Williams, of the Diocese of Los Angeles; James R. Punton of Idaho, and George A. Bechler of Western Nebraska.

The house of bishops accepted today the resignations of three of its members.

The Rt. Rev. Leland Wells, missionary bishop of Spokane, and the Rt. Rev. William Crane Gray, missionary bishop of Southern Florida, retired on account of age. The Rt. Rev. Alfred William Knight, missionary bishop of Cuba, gave up active service in the church to become capital vice-chancellor of the University of the South at Sewanee, Tenn.

The bishops voted the motion to further discuss of the remaining sections of the report of the Committee on Provinces.

TO GROUP DIOCESES.

One of the governing bodies—the house of bishops of the Protestant Episcopal Church of America voted yesterday to group the dioceses into provinces or synods, eight in number, after the custom that prevails in the Episcopal church of England.

Protests against adopting the change were made on the floor of the convention. Three years ago a commission was appointed to consider it and today an affirmative report was presented.

The house of bishops in executive session declined to adopt two recommendations presented by a commission appointed three years ago to consider the relations of the army and navy chaplains to the church. One recommendation suggested placing the army and navy in a separate diocese under a bishop and the other that the army and navy chaplains should be under the jurisdiction of a bishop of Washington, including the Bishop of Washington as chairman.

Many of the low church delegates opposed the change in the method of government on the ground it was a step in the direction of archbishops and "American Popes."

The report of the commission provided for eight provinces or synods in which various dioceses and mission-

ary districts of the church shall be grouped, according to their geographical location. Each of these provinces would be governed by a council composed of two heads. At its head would be a president, and in the second method of administration would be similar to that now in force in the entire body of the church as exercised at the triennial convention.

THE DIVISION.

The proposed division of dioceses into provinces was as follows:

First province—Dioceses within the New England States.

Second province—States of New York and New Jersey and missionary district of Porto Rico.

Third province—Dioceses of Pennsylvania, Delaware, Maryland, Virginia, West Virginia and the dioceses of Washington.

Fourth province—Dioceses and missionary districts within North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee and Kentucky.

Fifth province—Dioceses of Ohio, Indiana, Illinois, Michigan and Wisconsin.

Sixth province—Dioceses and missionary districts in Minnesota, Iowa, North and South Dakota, Nebraska, Montana, Wyoming and Colorado.

Seventh province—Dioceses and missionary districts in Missouri, Arkansas, Texas, Kansas, Oklahoma and New Mexico.

Eighth province—Dioceses and missionary districts in Idaho, Utah, Washington, Oregon, Nevada, California, Arizona, Alaska, Hawaii and the Philippines.

MRS. MACKAY DENIES.

Suffrage Leader Hits Back at Woman Who Sues Her for a Million in New York.

**NY A. P. DAY WIRE TO THE TIMES**

NEW YORK, Oct. 15.—Mrs. Clarence H. Mackay, suffrage leader and wife of the head of the Postal Telegraph Company, broke her silence today regarding the multimillion dollar suit filed against her by Catherine E. Blake, for alleged alienation of the affections of her husband, Dr. Joseph A. Blake, surgeon.

Through her personal counsel, Arthur C. Tracy, Mrs. Mackay denies

all of Mrs. Blake's allegations in a formal

answer filed in the Supreme Court and characterizes Mrs. Blake as one

who has a "jealous disposition, an unmerciful temperament, and no affection or love for her husband."

At one time, it is alleged, she threatened

to kill him.

Since 1895, Mrs. Mackay avers

that she had no affection for the doctor.

"On the contrary," the answer con-

tinues, "she has sought to injure his

good name by constantly spreading

among his patients, relatives and

friends false and unjust rumors and

accusations against him regarding his

intimacy with other women and his

FEATS OF DARING.

Mrs. Blake has had no affection for the doctor.

**The Boot Shop Quits!**

Now for the Climax of the Greatest Shoe Sale Ever Held in California

As previously announced, the makers of "Queen Quality" Shoes for women, and "Bostonian" Shoes for men, have decided to confine their efforts wholly to manufacturing. Rather than dispose of their Los Angeles stock pair by pair, and in order to close the transaction quickly, they made us a remarkable offer. They volunteered to assign us their valuable store lease and to sell us their fixtures and stock at about half regular value. We accepted the proposition on condition that all goods made up for this season be included and turned over to us at once.

**Entire Stock Now On Sale At Prices Which In No Instance Cover Actual Cost of Making**

We have just received two big shipments of "Queen Quality" and "Bostonian" Shoes. They present the last word of authentic shoe style and feature every best effort of modern shoemaking. They are in all ways the very best shoes ever produced by manufacturing genius and would prove a satisfactory investment at any price, but this sale puts them within your reach at less than the usual price of very ordinary footwear.

**Absolutely No Lines Reserved—All Shoes Just Received Are Included at SACRIFICE PRICES****"Queen Quality" Shoes for Women**

Newest designs in button and lace boots; Colonial or "English" pumps, for street or evening wear; Gibson ties and four-button low shoes. All leathers; also velvet and satin.

**Shoes for Boys and Girls at About Half Price**

Scores of styles-in-all leathers. Shoes of standard makes and reliable quality.

This IS an extraordinary shoe opportunity which you owe it to yourself to at least investigate. Only most unusual circumstances make such a sacrifice possible, and the response will undoubtedly break all records.

All Future Sales Will Be Measured By This Event!

**Smacks of Bryanism.**

Continued from First Page.

Secretary of the Treasury said the bill provided for vast immediate extension of credit, but did not provide effective mechanism for subsequent contraction.

**HAVANA REPORTS****PLOT TO KILL DIAZ.**

(BY CARLIS AND A. P. TO THE TIMES)  
HAVANA, Oct. 15.—Gen. Felix Diaz, who now is on his way from Europe to Mexico, is believed to be in danger of assassination on his arrival at Havana. The Cuban government received information that a band of Mexican conspirators were planning to kill Gen. Diaz, who will reach here on Friday evening or Saturday morning.

The secret police express hope of arresting the conspirators. The government has issued orders that the utmost precautions be taken to insure the safety of Gen. Diaz.

**JUSTIFIERS AMERICA'S DEATH.**

Colonel Commander Who Executed Mine Manager Says He Defied Gen. Urbana's Orders.

(BY A. P. NIGHT WIRE TO THE TIMES)  
EL PASO (Tex.) Oct. 15.—The alleged refusal of Samuel Weineger, manager of the mines at Mapimi, Durango, who was executed there on Saturday, to obey orders of Gen. Diaz, to postpone strikes in California, has been justified by the execution of Gen. Alvaro Obregon, who was killed in Mexico.

In the proposals to create a Federal reserve board and to provide for the issue of government notes, Mr. Aldrich said that the public was in error in regarding the bill as an emanation of President Tyler to Congress in 1841 for the creation of an exchequer board. The plan, he said, found no substantial support in either branch of Congress and went down to oblivion.

The Federal reserve board, for which provision is made in the Glass-Owen bill, said the speaker, in reality would bring about the creation of a central bank, and that the power given over the board to determine the rate of discount each week to be charged by each reserve bank for each class of paper. The fixing of this miscellaneous collection of rates, said Mr. Aldrich, could not possibly be made effective for any of the purposes for which bank rates are fixed and charged in other commercial countries.

It is declared that the board was given dictatorial powers over business of the banks, powers that can be properly exercised only by trained bankers. In emergencies, he asserted, the board would be powerless.

"It would be able to control elections and insure the success of a political party," he said, "but in times of stress it would have no power to preserve public or private credit. It would be unable to loan money to desperate banks, friends or to deposit government funds in 'pet banks,' but it would be unable to assist a bank or a community in times of serious trouble."

Saying that banks might surrender their charters rather than enter the proposed system, Mr. Aldrich said:

"It is safe to say that the serious disarrangement of credit, the concentration of capital in a few hands, and the destruction of confidence that would arise from a transfer of any considerable amount of the banking business of the country from the nation to the States would end in a financial panic such as we have never seen in any country."

**COLLEGIAN LEAD ASSAULT.**

Prof. E. R. A. Seligman of Columbia University, Frank A. Vanderlip, president of the National City Bank of New York, and Prof. Joseph Frank Johnson, dean of the New York University school of commerce, led the assault at the morning session of the conference, held at Columbia University.

"I must voice, in the name of the academy of political science," said Prof. Seligman, "my very pronounced disappointment that in some of the fundamental features of this bill no attempt has been made to follow the teachings of sound theory. The bill runs in a glaring way against some of the fundamental principles of science."

Mr. Vanderlip defended the principle of a central bank, as opposed to the twelve regional reserve associations contemplated in the Glass-Owen bill. He said the best minds in Congress knew they were not for a party platform but would provide for a central bank.

Prof. Johnson characterized the bill as dangerous. I see no escape from the conclusion," he said, "that the Glass-Owen bill is to blame for the panic we are soon likely to bring this country into a period of dangerous credit extension."

"Banks will either lend more freely in their respective districts, thus causing local or regional inflation, or they will be compelled to loan to New York to be loaned in Wall street, thus stimulating speculative prices."

Emphasizing what he considered the danger of credit expansion, Prof. Johnson said that it could easily and finally lead to a panic. "This bill," he said, "will not bring the millennium nor will it paint Wall street white."

Prof. E. W. Kemmerer of Princeton said:

"With the adoption of minor changes I should expect the Glass-Owen bill to provide a bank note circulation that would meet well the three great tests of a bank note: ultimate security, prompt convertibility and elasticity."

A. Platt Andrews, former Assistant

Postmaster General, said:

"There is no more chance of the bill being passed than there is of the bill being defeated."

The number of refugees thus far taken on board is not stated.

## TRIES TO STOP ROYAL WEDDING.

Militant Waves Petition at Prince's Nuptials.

Judge Dodges Vegetables as He Jails Suffragette.

Women Open Peoria Campaign With Wordy War.

BY CARL A. F. TO THE TIMES

LONDON, Oct. 15.—Prince Arthur of Connaught, son of the Duke of Connaught, Governor-General of Canada, was married today to Princess Alexandra Victoria, Duchess of Fife, eldest daughter of the widowed Princess Royal of London. The ceremony took place in the ancient chapel of St. James Palace, where both were baptised.

A futile attempt to reach King George and Queen Mary was made by a militant suffragette, Miss Margaret Sterling, as Their Majesties were on their way to the wedding. The young woman broke through a line of police, waving a petition, but she was arrested.

Fewer than 300 persons witnessed the ceremony, but not since the coronation of King George has there been such a gathering of royalty and notable personages.

Besides King George, Queen Mary, Queen Alexandra, King Edward VII, Queen Victoria, and other relatives of the couple, the congregation consisted of the diplomatic corps, the British Cabinet members of the royal household, and distinguished civilians. American Ambassador Walter H. Page wore plain evening clothes, and was the only man there without a decoration.

The bride is the chapel heiress, King George and her mother. The five bridesmaids were Princess Mary, daughter of the King and Queen; Princess Maud, only sister of the bride; Princess Victoria and Princess

LEONARD TO THE TIMES

ATLANTIC CITY (N. J.) Oct. 15.—[Exclusive] Dispatch.—A vital change in the attitude of transportation companies toward employees was reflected today in the report of the Committee of Employee Welfare, presented at the annual convention of the American Electric Railway Association by J. Y. Burleigh, second vice-president of the Public Service Corporation of New Jersey. It strongly advised arbitration for sick and death benefits, senior annuities or pensions, accident benefits, profit-sharing and savings and loan funds.

The committee, which included D. F. Sherman of the Rhode Island Company; J. L. Callery, president of the Pittsburgh Railways Company; D. A. Stevens, Cincinnati Traction Company; H. T. Edgington of St. Louis and Webster Management Company; C. S. Krick, superintendent of the Tunnel and Terminal Company, operating the Pennsylvania Railroad entrance to New York City, went so far as to urge that in the interest of better service no employee in future be discharged from the service of any of the over 400 lines affiliated with the American Railway Association without a full and fair hearing. Any doubt that may have existed as to whether the transportation experts would receive the far-reaching "brotherhood and mutual relations between companies and employees" was dispelled when applause greeted the following striking:

"In our opinion we must acknowledge that if a man gives the best for his industry, he deserves it."

At the present time, it was said that two men stopped work for one day about two months ago because of the food. It was not said what steps were taken to get the men to return to work.

Hawthorne and Morton were sentenced March 21 last to terms of one year and one day, but it was ordered that their sentences date from the time of their arrest, four months previous. "Good behavior" brought further shortening of their sentence.

Since he entered the doors of the Atlanta prison, Hawthorne's record according to the officials, has been the accompaniment of Miss Ella E. Larson, dramatic soprano, who entered by L. A. Larson and his manager, Harry H. Madson, Monday, October 15.

Miss Larson writes: "I consider your world is a small one and I am glad to be here in it."

**Board Meets.**  
**ALARM SYSTEM IS INADEQUATE.**

**Four Hundred More Boxes Needed, Says Chief.**

**Commission Promises Prompt Action to Council.**

**Overloaded Circuits a Cause of Costly Delay.**

**More adequate protection of the city against possible heavy loss of life and property by fire is in the purpose of Fire Chief Eley and the Fire Commission, as expressed through action taken yesterday at the board's meeting.**

**Eley declares the city is in urgent need of at least 400 more fire-alarm boxes, and that these should be placed as speedily as possible. The commission concurs, and the City Council is to be asked to take prompt action.**

**In his communication to the Fire Commission yesterday, Fire Chief Eley pointed out the inadequacy of the present fire-alarm system and recommended that a request be made to the Council for immediate attention.**

"I call your attention to the reports that have heretofore been made by me to the Board of Fire Commissioners to the effect that there is a lack of the same few minutes in getting the apparatus to the scene of action, and this delay may mean the loss of as many hundreds of thousands of dollars and the endangering of life, then you will realize what a dangerous thing is delay."

"When you appreciate as fully as I do that the loss of a few minutes in getting the apparatus to the scene of action, and this delay may mean the loss of as many hundreds of thousands of dollars and the endangering of life, then you will realize what a dangerous thing is delay."

"When the fire-alarm system is inadequate and insufficient, there is a loss of life, property and safety of life and property, and in view of the fact I have urged as strongly as it was possible for me to do the importance of this question, I feel that it is now time through any such delay, the blame should not rest on my shoulders."

"Complete records are kept of the time of receiving calls from householders also the various emergency houses, also the promptitude with which these calls are met, and I am proud to say that these records so far with show that the department responds promptly."

The Fire Chief stated that although on April 21 he had urged the installation of thirty or more fire-alarm boxes in the third district, no action was taken, and the Motion of the Fire Alarm and Police Telegraph Bureau had officially called attention to the present condition of cables and the need of numerous additional boxes, and the demands about giving added protection to this district.

"It is immaterial to the fire department what kind of fire alarm system is in operation, so long as it is in use along with speed and certainty," declared Chief Eley. "He urges that as an adequate, complete system cannot be fully installed in less than two or three years, he has recommended to take immediate steps to provide for the alarm boxes for which money was appropriated in this year's budget."

**THE DISTRICTS.**

In this connection lists of locations suitable for alarm boxes were submitted to the Fire Commission, and were approved. One of these districts covers the territory bounded by Slauson Avenue, Manchester Avenue, the eastern city limits and the western city limits, but not including the Shoe-string Strip.

Another district includes what is known as the McCarthy Trail, from South Park to Main and Sixty-eighth Street, to Main and Sixty-eighth Streets. Another is bounded by Washington, Jefferson, Figueroa and the western city limits, and still another by Wilshire, Washington, Vermont and Western city limits.

The Fire Chief also recommends twenty-six boxes for the district bounded by Melrose, Wilshire, Vermont and Western city limits. Twenty-five boxes for the territory of Jefferson, Slauson, Figueroa and the western city limits.

An item of yesterday's reports to the Fire Commission, showing the amount of fire for the past week was estimated at \$105,755. Impresses one with the importance of the movement for using all possible means to insure the efficiency of the fire-fighting service.

As a further factor in the movement for better fire protection, Chief Eley has already recommended the purchase of a 1000-foot reel of hose and several pieces of motor-driven fire apparatus. These recommendations are now in the hands of the Supply Committee of the City Council.

The recommendations of the Chief, with approval of the Fire Commission, will go before the City Council today.

**IN THE DRY ZONE.**

**Elegor Dealer Convicted of Having Solicited Trade Will be Sentenced Next Monday.**

**Deputy District Attorney Richardson won conviction yesterday of a defendant charged with having solicited orders for liquor in dry territory. The case was tried before a jury in Justice Northup's court at Alameda.**

The defendant was E. Meleno, an employee of Davis & Matheson, Gabriel wine proprietors. It was charged that the man had solicited an order from T. Asota for two dozen bottles of beer on August 2. The defendant will be sentenced today.

Daniel Matheson will today try the partners of the Ayres Club, alleged to be selling liquor in defiance of the county ordinance. This will be one of the last "blind pig" cases resulting from the new rate of 25 per cent imposed by the District Attorney some time ago.

**WOMAN'S JEWELS GONE.**

**Deputy District Attorney Jones issued a complaint yesterday asking for the arrest of W. D. Jones, who is charged with grand larceny. According to the deputy Jones ingratiated himself with Clara E. Henderson of San Pedro, and while at a cafe, stole her handbag containing \$1000 worth of jewels. Mrs. Henderson is the wife of a grocer of No. 204 Fifth street, San Pedro.**

**Fight for Estate of a Husband Slain.**

Mrs. Lea Delmon (top); Mrs. Louise Pons.  
They are sisters-in-law who are at odds in the courts for the property of the man whom Mrs. Delmon killed because, she said, he tried to make her go back to the crimson life.

For Money.

**SORDID WAR ON WOMAN'S NAME MERCIFULLY ENDED.**

**T**HE pathetic picture of a frail lit-and sister-in-law, Mrs. Louise Pons, of San Jose, said something that wounded her. The hearing closed in the afternoon, the matter being submitted to Judge Myers on briefs. The only point involved is the integrity of Mrs. Delmon, whose husband was killed by Mrs. Pons' counsel, but apparently without success. It was shown that since the fatal night when goaded by her brutal husband, the stout, dark-haired woman, Lea Delmon, has been earning an honest livelihood by conducting the Plaza rooming-house at No. 511 North Market street. Evidence to this effect was given by W. D. Palmer, attorney for the deceased, and Mrs. Palmer Brown, whose beat includes that district. Mrs. Delmon, he said, keeps a respectable house and has a good reputation.

**WHO'S TO MAKE GOOD.**

(Continued from First Page.)

him all the money he collected. According to Steele this was done.

Then there came meetings of the new club when many men appeared as "members." There was no record of such members, and Steele had his license suspended for six months by the governmental inspectors.

Inspectors Guthrie and Dolan, before whom the club was heard, and stated that Paschal had received an excessive number of passengers with lack of accommodations to shelter them, and that Paschal's own testimony was given by the inspectors.

Members of the club, however, claimed that Steele had been keen, too. He left a trail that he had been able to follow.

**LICENSURE SUSPENDED.**

Commander of Launch Disabled Off Catalina Overloaded Craft; Defective Gears.

Frank Paschal, commander of the gasoline launch Panama, which became disabled in August and drifted helplessly between Catalina and Long Beach, endangering the lives of many people, was given his license suspended for six months by the governmental inspectors.

Inspectors Guthrie and Dolan, before whom the club was heard, and stated that Paschal had received an excessive number of passengers with lack of accommodations to shelter them, and that Paschal's own testimony was given by the inspectors.

wise Message Cabled. Day, 22,000;  
Night, 22,000.

OFFICE:  
New Times Building, First and Broadway.  
LOS ANGELES (Loco Ahng-hay-lais)

Entered at the Postoffice as mail matter of Class II.

UNSATISFACTORY.  
A San Diego man made a murderous attack on his wife and then hanged himself. If that sort of man would only commit suicide before marrying he would be quite the ideal husband.

AFTER US.  
The Southern Pacific has died plans for a half-million-dollar depot at Los Angeles. It seems that company is determined to make improvements here, whether the politicians want it or not.

COMING BACK.  
A Washington dispatch informs us that Mr. Lind may return at once. Where have we heard that name before? It seems that it was in connection with Mexico, but we do not recall that anything was done about it. Still, is anything ever done about Mexican affairs, where the United States is concerned?

A GOOD START.  
When the Duchess of Fife married Prince Arthur of Connaught friends made them wedding presents worth \$750,000. They ought to be able to begin house-keeping on this sum if the list does not contain too many duplicates. We are afraid that there is not a dish-washer nor clothes-wringer in the outfit.

HEAD OF TIME.  
So many and so striking are the wonders attending the construction of the Panama Canal that we can hardly begin to comprehend the magnitude of the task or the marvel of its success. But perhaps one of the most extraordinary features of so stupendous an operation is that it should be completed ahead of time.

INVERSE PROPORTION.  
For subtle satire it is sometimes hard to beat the simple Chinaman. In offering rewards for the arrests of the late revolutionists the Chinese government pursued a course to delight the heart of Gilbert K. Chesterton. They offered the biggest reward for the smallest fugitive and the smallest reward for the biggest. Dr. Sun was marked down to five pesos. We might sometimes with profit follow the same course in our own country and State. Should Hiram Johnson (which the heavens forbid) ever become a fugitive from justice, nothing would hurt him more than to be priced at thirty-five cents.

A SPLENDID GIFT.  
O. T. Johnson has presented the Florence Crittenton Home with a check for \$50,000 for the erection and equipment of a new building. The institution has been sadly in need of adequate quarters for at least four years. Under the management of Mrs. Frank Stoddard, Florence Crittenton Home at Los Angeles has been one of the most useful in the United States. There has been nothing cold or forbidding about its charity, and charity is often vicious and cruel. Mrs. Stoddard has not been the sort of head who has given a pink tie once or twice a year and left everything else to the matron, nor have the advisory boards of the home been satisfied to meet in a perfunctory manner just often enough to be legal and to leave everything else to the routine of institution work. Mrs. Stoddard and the members of the advisory boards have made a personal study of every case and have been of deep and permanent benefit to the unfortunate girls whose lives they have touched. The least that a city can do for an institution of such a purpose and backed by such faithful workers is to see that there is money enough to carry the work on.

LOSING VENTURES FOR A CITY.  
Major Baker of Cleveland, who is urging the construction of a municipal telephone system at an estimated cost of \$4,500,000, has entirely ignored the lesson of some other enterprises in which the city has engaged, which indicate that the day has not arrived when a municipality can compete on even terms with the individual.

Cleveland has been selling gasoline in the city parks for the convenience of motorists. The balance sheet shows that when the salary of the vendor was deducted from the receipts the experiment cost the city \$15. The rowboat service maintained on the lakes in the city parks ran behind \$275; the gross returns of the municipal launch department were 15 cents less than the pay roll, and even the municipal bait house, provided to supply bait to fishermen, conducted business at a loss of \$25.55.

No wonder a good many Cleveland taxpayers, after this losing experience with the small and simple enterprises named, question the wisdom of saddling a bond issue of \$4,000,000 on the city for such a hard business to profitably conduct as the telephone business. A city that cannot even sell gasoline at a profit (or, as here, conduct a municipal newspaper without heavy loss) needs a course in the business kindergarten before attempting to compete with the telephone company, or attempting to conduct such an expert business as the retailing of electric power, after first unnecessarily investing—permanently investing—millions of dollars borrowed at interest for transmission lines to carry the "juice."

THE PROGRESSIVE DIMINUENDO.  
Once upon a time a progressive statesman took a recess from his self-imposed task of reforming the politics, the morals and the manners of the nation, and indulged himself with a fishing excursion along the bank of a river. He caught a large catfish, tied him with a stout piece of twine to a tree on the bank, threw him into the water and continued his pictorial pursuits down stream.

Another angler, who had caught a small fish, noticing the cord, pulled it up, exchanged his little fish for the big one, and departed with the spoils. The first fisherman returning, pulled up the line and gazed with surprise and dismay at the little fish. "Well," said he, "this is the same tree and the same cord, and I suppose you must be the same fish, but there has been an unaccountable shrinkage in you."

The progressive fisherman for votes at the municipal elections in Illinois, in Missouri, in Michigan and in New York, and at the Congressional election in the Third Maine District, and in West Virginia has witnessed with surprise and dismay the shrinkage that has everywhere taken place in the Progressive vote since last November. The big catfish has shrunk to the size of a sardine.

Unable or unwilling to accept the truth that the people are weary of the inordinate ambition, the injudicious counsel and the half-baked ravings of Roosevelt and his little coterie of worshippers, the Progressive leaders attempt to account for the repeated defeats of their candidates in every part of the United States, where since November last an election has been held, by bombastically claiming that the Progressives are "concerned only with moral and economic principles of national import, and do not interfere with elections in cities and counties where the contest is with respect to questions of domestic management."

The fact remains, nevertheless, that in every instance of a Progressive defeat the candidates were nominated by the regular Progressive organizations.

He is blind indeed to the portents of the times who does not see that the Roosevelt fiasco has run its course, and that the next national contest will be as old, though by Republicanism and Democracy.

#### HOMME INSTRUCTION TO FARMERS.

Fifty years ago Congress passed the Morrill bill establishing State agricultural colleges. Twenty-five years ago the Hatch bill was passed establishing the experiment stations. It is now proposed by Senator Smith of Georgia to take the information, scientific and accurate in its nature, which has been gathered at the colleges of agriculture and at the experiment stations, and place it alongside the home of the farmer, and there, by demonstration, give him the benefit of all the information thus acquired.

Section 3 of the bill introduced by Senator Smith provides that co-operative agricultural extension work shall consist of the giving of instruction and practical demonstrations in agriculture and home economics to persons not attending or residing in said colleges in the several communities, and imparting to such persons information on said subjects through field demonstrations, publications, and otherwise; and this work shall be carried on in such manner as may be mutually agreed upon by the Secretary of Agriculture or his representative and the State agricultural college or college receiving the benefits of this act."

An appropriation is asked of \$400,000, or \$10,000 to each State, which by the action of its Legislature shall assent to the provisions of the act. A further appropriation of \$200,000 is asked for the next year, and \$200,000 more each additional year for nine years, until the annual appropriation each shall amount to \$3,000,000. The additional sums shall be allotted annually by the Secretary of Agriculture to each State in the proportion which the rural population of each State bears to the total rural population of all the States, as determined by the next preceding Federal census.

It is provided, however, that no payment out of the additional appropriations shall be made in any year to any State until an equal sum has been appropriated for that year by the Legislature of such State, or provided by State, county, college, or local authority for the maintenance of co-operative agricultural extension work.

The agricultural colleges and experiment stations have been of great help to the farmers of the land, although those living at a distance from them have not often found time to visit them for advice.

The proposed law will enable the college to send to the farmers of each neighborhood a competent officer who will advise each one for what product his soil is best fitted and what and when to plant, and what fertilizer to use.

The benefit to our farmers and to the nation of the operations of the proposed law will be almost incalculable. It has been often remarked that the farmers on the worn-out acres of Europe produce larger crops from the land than do our farmers on virgin soils.

With the proposed law enacted and in practical operation that reproach will no longer be visited upon us, and those who enacted the law will earn the blessing which it is said will come to him who causes two blades of grass to grow where one grew before.

#### ANGELIC ARIZONA CONVICTS.

Arizona is fortunate in having on her pay roll a parole clerk of her State prison with exceedingly optimistic views on convicts generally and Arizona convicts especially. He asserts that the convicts of the Sun-kissed State "have divine attributes inherent within them. He is an advanced penologist who proposes to make of the Arizona prison an "institution of the progressive type in the conservation and regeneration of human beings." He says that "the great principles of Christianity are just being introduced" into the Arizona prison. "Pagan customs of cruel torture were in vogue previous to the dawn of this new Christian era," of which he is the herald and the apostle. "Humanity" he says, "had been forgotten in that dark and dismal age of our history. The writing of the Arizona Constitution marks the beginning of a new epoch in American

#### A Pleasure Greater Than Gathering or Even Eating the Nuts.

[From Chicago Post.]

history. That bold instrument proclaimed the rights of men. The nation has caught the spirit."

The parole clerk—J. J. Sanders by name—regrets that "one pagan custom of punishment still remains upon the statute books of Arizona. The pagans threw Christians to the wild beasts in the arena ancient Rome, or nailed them to crosses until they died. We execute Christians by hanging them by the neck until they are dead. This pagan custom has been grafted onto our Christian civilization."

"Quite emulating those pagan Romans by having legal executions," says Pay Roll Clerk Sanders, "and get under the influence of twentieth century progress. Repeat all laws relating to legal executions."

A convict, says Mr. Sanders, is simply an abnormal human being who has psychic or physical defects. He should be sent to prison to cure him and not to punish him, exactly as a rheumatic is sent to the Arkansas Hot Springs to be skinned by boiling water in the daytime and with draw poker at eventide. "It is the duty of the sovereign State of Arizona in dealing with her criminals," says Mr. Sanders, "to act the part of a parent to an erring child and point out to him the way to higher ideals."

When the present administration in Arizona took charge of the pentitentiary it found in the prison morgue a library of 227 volumes, among which were 24 volumes of Thackeray's works, 26 volumes of bound magazines and 10 volumes of fiction. There were 30 Bibles which had never been opened. Since then 310 volumes have been added, and one of the 30 Bibles has been read by a man convicted of passing a phony check, but who is now cultivating "the divine attributes inherent in him."

The prisoners in Arizona are supplied with all the newspapers and periodicals they desire, as are convicts in other States. It is an interesting fact, noted by Mr. Sanders in his report, that the inmates of the California State prisons at San Quentin and Folsom are allowed all the newspapers and magazines with the exception of those published in California. It is probably deemed inexpedient to obstruct the passage of the psychic defects toward beatitude by permitting them to peruse such pernicious literature as is presented in the columns of our one-scent progressive institutions.

The prisoners in Arizona are supplied with all the newspapers and periodicals they desire, as are convicts in other States. It is an interesting fact, noted by Mr. Sanders in his report, that the inmates of the California State prisons at San Quentin and Folsom are allowed all the newspapers and magazines with the exception of those published in California. It is probably deemed inexpedient to obstruct the passage of the psychic defects toward beatitude by permitting them to peruse such pernicious literature as is presented in the columns of our one-scent progressive institutions.

Mr. Sanders is not alone in his efforts to boost Arizona convicts toward "higher ideals." Under the inspiration of Gov. Hunt—who gives them a terripin, turkey and grape juice dinner every once in a while—they have a menu such as would tempt the appetite of an epicure. Six hours daily toll at some light task keeps their muscles and their digestions in order. Bridge whist in the evenings and baseball on Saturday afternoons serve to beguile the tedious of imprisonment.

Parole is allowed in Arizona. Mr. Sanders reports that of forty-six men out on parole only one broke his parole and was apprehended. It is shredly suspected that he violated his parole on purpose in order to secure better food, better quarters, more fun and lighter labor in the prison than he could obtain outside its walls.

Every Arizona prisoner, on the expiration of his sentence, will be fitted with a new suit of clothes, a well-stocked lunch basket, a flask of whisky, a pack of playing cards, ten dollars in money and a halo.

If Sanders has his way altogether, these soapbox orators and other undesirables in Los Angeles are recommended to try a brake-beam or empty horse car trip to Yuma, or Parker or across the river from the Needles. There the seeker for a higher life can perch-climb, or burglar, or set fire to a barn, or ride away on another man's horse. He can avoid the danger of being principal guest at a nekkie party (which is still an occasional function among ancient Arizonae who have not assimilated the Sanders theory of criminals with high ideals) by giving himself up and pleading guilty, and he will then be ticketed for membership of the bright and shining band who set an example of grace and perfectness and moral beauty to the dwellers in the Sun-kissed State.

"NO PEN CAN DESCRIBE IT."

It is pleasant to record the observations on California made by so gifted and traveled a foreigner as Sir James Sivewright. With his twenty years' experience of progress in South Africa, where climatic and topographical conditions are somewhat similar to our own, he is well qualified to speak on such a subject.

We are not surprised to hear that California was a complete revelation to him. It is to every thoughtful and observant vis-

#### THE BITE AND THE CHEW.

"Don't Bite Off More Than You Kin Chaw."

It is a very homely phrase of advice, as old as it is homely and as wise as it is old. Many a man has been ruined by prowl. Many a good soldier has gone to wreck when he was made a sergeant. More than one colonel has lost his commission by his promotion to be a general. Sometimes a man who has shone like a whole constellation as a perennial candidate, has dimmed to a camp-meeting torch when exalted to high and dignified office.

TOO BIG AND TOO MANY BITES.

The King of Bulgaria prolonged his triumphant campaigns just a month too long, taking one more big bite when his mouth was full. The champion Marathon runner, coming back to America radiant with honors, ran just one more race after his last victorious one. I have forgotten his name: Alexander the Great conquered an empire so big that it fell to pieces of its own weight and size. A child's card house toppling down just as he is adding "one more story," Horace Greeley would have died a great editor had not run for President. The pathway of history is drawn with the skeletons of men who died with great lumps of gristle imbedded in their windpipes and their stomachs full of wholesome food.

The rate at which this country of ours is growing makes the beholder catch his breath. By "country" is meant Southern California, of course, and specifically Los Angeles county. It is growing by leaps out of all bounds. We have to use adding machines to keep up with its natural growth. And but for the fact that we were watching the small bull market at the time, in spite of masslessness and senseless hysteria bordering on insanity, we would have paid some slight attention to the dynamiting of the last barriers between the Atlantic and Pacific oceans at Panama. As it was, to our minds, our interests, our hopes were exclusively absorbed by more important things, and the "world series" meant more to us than any "world achievement" ever wrought by human genius and industry.

Every now and then some man makes a guess at the multitude that will throng Southern California in 1915—simply in the morning of January 1. But all the other prophets laugh his guess to scorn and tell him he has several more coming. And they multiply his tens by hundreds.

A series of games for the ship ship between the Hogan and the Salt Lake teams is announced.

WOMEN'S WORK,  
WOMEN'S CLUBS.

BY SYDNEY FORD.

"Why, Felicia, it's—the Russian ballet," was the shocked expression of an Ebel dame the other day when an airy, fairy figure, in a shimmering pink tutu, leaped across the stage and very full, waltzed onto the stage with arms waving like the white wings of a bird, feet twinkling and body swaying to the rhythmic measure of the music. Consequently, how airy and light she tried to kick the ceiling and at those intervals Felicia's mother gasped and turned pale.

A young man clad in a sleepy smile and a Howard Sinatra grace was on a snowbank at the rear left of the stage, but the vision in pink tights apparently did not see him as she flew like a humming-bird round and round the stage, sometimes the gauzy robes fluttering like clouds about them. And how they danced—those lovely nymphs! Light as thistle down from the classic dance of Diana. It was literally fairytale turned loose, what with the nymphs and the fauns dancing and the swans with wings coqueting with the yellow roses, and the evening star flirting with the spirit of fun. The love story of Endymion and Diana was depicted in pictures from the beginning on to the tragic end, when he falls into eternal sleep with Diana brooding over him.

Next we had a dance allegory, and it was as if some of Coriolanus' woodland scenes had come to life and motion as the sprites of the seasons fluttered about. The dance of dawn was a living interpretation of an Aurora, cloud and floating so lightly about the

stage that her feet seemed to scarce touch the floor.

Did I dream?—Well, I should say I was shocked at first breath by the brevity and diaphanous quality of the costumes and the distinctly ballet features of the dance, but once they were simply entranced with the fascinating performance, and they were determined to see it through, Russian ballet or no Russian ballet, toe-balancing, twerking, high-kicking lovely legs and all.

"I imagine that exercise would reduce flesh," Felicia," commented the stout and plump dame as she watched the dancing dame do her sleeve spinning about the stage, all diaphanous skirts, spangles, pale pink tights and grace. "But, oh, my dear, a Russian ballet—here—in this club!"

As a plain matter of fact, dear, disturbed by the bird, the Russian ballet was originally Russian at all; neither is it especially wicked. Paint herself, the music, the dancing, the costumes, the scene, the setting, the atmosphere, all are Russian.

It began as German, French and Italian by turns and not till two centuries after was it introduced to its climax in the careers of half a dozen really great danseuses—not one of whom was of Russian birth. The foremost was an Italian, and another was the incomparable Fannie Eller—a German by birth.

The real mission of the Russian ballet is to transmit to the audience not merely the shell or outline of story, but rather of representation of the idea intended. No movement is simply mechanical or conventional and it is not used to tell the story, this being beyond mere pantomime. Pavlova points out, that has made the Russian ballet unique in the history of dancing.

Miss Norma Gould and Ted Shaw put on the programme of interpretation and classic dancing at Ebel and they were assisted by Misses Adelade Muus, Mary Angeletti, Dorothy Johnson, Marjorie Capron, Marjorie McKnight and New Land nymphs; Miss Louise Velasco, evening star; Otto Williams in Mercury; Morris Cohn and Gertrude Workman will present them.

**NEARLY A THOUSAND TEACHERS.**

The City Teachers' Club is congratulating itself on the accession of more than 100 new members, which brings the total membership up to 970. They announce that the goal is 1500 and they are, therefore, reaching out for more members.

The Social Committee, organized an informal tea

## KEEPS HIS MOUTH SHUT.

EVEN when many come to jail and identify Freshman as Burgrave He Merely Shrugs Shoulders. Louis Creedon, a tight-mouthed Freshman, was puzling the detectives and winning a reputation as a stanch member of the Sons of Silence until yesterday, when he was identified as the parent of a number of restaurant burglars and probably twenty less ones. Also his measurements were taken and found identical with those of an ex-convict from an Arizona prison.

So far he has said nothing. He eats in silence, converses with shrugs of his shoulders and glares from his sleepy eyes. "Did he steal?" a shrug answers. "Was he a convict?" Another shrug.

But he shrugged himself into the sunlight yesterday when the men of property who identified his belongings as part of the loot found in his possession.

Codman is the most successfully known being that ever stirred the Central School of the Russian Ballet. He has decided that his are the hands that took \$400 in valuables from the home of Frank G. Tyrrell, No. 225 South Berendo street, October 1; \$259 from the residence of Z. J. Pierre, No. 229 Carondelet street, September 25; \$500 from the residence of R. M. Bishop, No. 1190 West Adams street, September 14, and \$500 from the residence of Superior Judge W. R. Harvey, No. 601 Shatto Place, September 16.

When arrested with loot on his person, Creedon took the stand for silence, and has kept it. Detective Hawley met the arraignment and connected him with the previous robberies and the man is considered one of the most important burglars captured in recent months.

## HUSBAND SEES WIFE KILLED.

**AGED WOMAN WHOSE HEARING WAS DULL DRIVES ON TRACK IN FRONT OF SANTA FE TRAIN.**

FRESNO, Oct. 15.—[Exclusive Dispatch.] While her husband stood 200 yards away horror-stricken, Mrs. John P. Thomas, aged 77 years, drove onto the Santa Fe Railroad tracks on Home avenue yesterday afternoon and was instantly killed. The horse was killed and the buggy dashed into the track. Thomas was heard screaming and her horse was obstructed by a packing house and string of box cars. She celebrated her seventy-seventh birthday yesterday. Besides the widower, Mrs. Thomas is survived by two daughters, Mrs. Martha Williams, Sunriset, Okla.; Mrs. Luella Hayes, Porterville; one son, E. C. Thomas, Visalia, and a sister, Mrs. Anna Settle, an actress who has won much praise with a number of important companies; Elsie Grey Terry, an ingenuo of rare beauty; Lillian Hayes, a famous soprano; actress of the famous Cube Square Theater Company of Boston; and Fanchon Everhart, who has pleased local audiences in the past with her undeniably expert character acting.

The coroner's inquest will be held Thursday.

## PECULIAR SUIT.

As the result of an early morning shooting affray in Idaho, Fred Prater, 20, of homestead "Piney Woods," was today held charged in the Police Court, charging Grant Adams, a prominent contractor of this city, with assault with a deadly weapon.

Adams was shot Peteras for a "peeping tom" who had been peeping in the windows and was filled with buckshot and left the hospital today. He denied that he had been peeping in the windows, and says he was shot by mistake, as the real culprit ran down the street ahead of him.

## DOG GIVES ALARM.

**RESCUE PARTIES HUNT FOR IDAHO FARMER WHO HAS BEEN LOST IN SNOW FOR WEEK.**

PORTLAND (Or.) Oct. 15.—[Exclusive Dispatch.] M. Freer, a farmer, 70 years of age, living twenty miles east of Orofino, Idaho, left his farm Thursday, October 9, in quest of cattle which were ranging in the snow-covered mountains near his home.

His long absence had caused little anxiety until his dog returned Sunday unaccompanied, when his friends became alarmed. Several rescue parties were immediately organized, and a systematic search for Freer is being conducted.

The animal, however, the mountain sheep, will be among the early offerings. Josephine Preston Peabody's play, "The Piper," Galsworthy's "The Pigeon" and "Gretchen," Masterlinck's "Madame Bovary," "Madame Bovary," Briere's newest play, "Blanchette" and "The Lone Woman," Paul Heyer's "Mare Magdalena," Synge's "Riders to the Sea," Tchekoff's "The Cherry Orchard," and a definite comedy, "Learned Ladies."

"Snow-White," one of last year's most pronounced successes in New York at the Little Theater; "The Talker," an American comedy, of moderate popularity last year in New York, Mr. Ames' current comedy hit, "Her Own Money," a series of one-act plays that will include John Luther Long's "The Confession," "The Confession," A. E. McFadden's "The Chimes," and a Japanese playette entitled "The Lady of the Hair-Pins" are included in the list of plays scheduled for early next month at the Little Theater, while two new plays by American authors, "Her Royal Husband" and "The Lady of the Leaves" are promising enough to call for first managerial prologues for success.

During the season at the Little Theater there will be offered such undeniably fine plays as "The Beckoning," will be presented by Comrades, with a few matinee performances of "The Countess Julie," Percy MacKaye's California play, "Tomorrow," with its soft and interesting scenes.

The women of California have

wasted a vast amount of time and energy because of lack of unified effort," Mrs. Orr said yesterday. "We have determined to try efficiency and scientific management of our club work. The organization of the Women's Legislative Council is a very important step in this direction. This is to the effect that the voters will not vote against the measure if women favor the act as it combat the social evil.

The council will support

the campaign for the state legislature.

**GUS EMBRACES A BASE-RUNNER.**

*Amorous Deed Lets Winning Run Across.*

*Lefty Leifield Has a Very Bad Inning.*

*Nevertheless, the Seals Are the Victors.*

(BY DIRECT WIRE TO THE TIMES)

SAN FRANCISCO, Oct. 15.—(Exclusive Dispatch.) It was chiefly because of the Leifield "blush" started earlier than usual and gave the Seals a chance to overtake it, that San Francisco, which the Oaks today, 4 to 1. That and the game had been that the southpaw served up, for he was in rare form in one inning, and even then would have escaped damage but for an error at his back, the usually reliable Roy Corhan shooting a runner in the middle of the back with the ball, instead of throwing to the sliding base guard.

Temporarily, it gave the Oaks a 1 to 2 lead, but the followers of the Communists in the tight spots were nothing but up to standard and the Seals worked their way through to victory with two runs that were chased home in the eighth.

**ABLES THERE.**

Harry Ables pitched a four-hit game in the eighth inning he worked, but the two bases on balls that he allowed ended rather disastrously for the Texan, for only one of the four runs counted likewise in the gathering of the runs.

The Seals broke the ice with an earned run in the third. Tobin beat out an infield single, ran to first on a sacrifice, and had been retired, solo second and scored on McDonald's double to center.

The seventh was a lively inning all around, San Francisco, with first and-in, added to the run to make a homely tally. Schaeffer walked and Downey sacrificed. Corhan laid down a hit toward third and beat the throw to second. Hefner picked up the ball and tried to throw it, but it was short. Schaeffer, meanwhile, had rounded third and stood far from the bag. Ness, who had plenty of chance to throw him out, instead of doing so, let the others go, gave Schaeffer a chance to return to third. Cartwright forced Corhan at second, Schaeffer reaching the plate on the play.

**OAKS TAKE LEAD.**

Loughlin had another of the best hits. Taylor beat out a hit toward third and Zacher fielded to center. Ness doubled past Cartwright's sack, and when Cook grounded to Corhan, the gun commanded. The shortstop had the ball to his right, but instead of throwing to Cartwright, hit Ness in the small of the back. As the ball bounced around the field both men accounted for it, and the ball was up in the air, putting the bats in front when Lard rounded out to second.

The game was won in the eighth. First and foul, but Tobin walked, going to second as McArdle scratched a single. They tried for the double steal which was quite successful. Hefner not only failed to land Tobin, but he got a sacrifice hit, and in the square matter he deliberately held Tobin at third, for which piece of work Tobin was allowed to score by the umpire. On the passed ball, McArdle went to third and landed and put the plate when Johnston hit down to Lard.

**SCOTTY MONTIEH.**

Johnny Dundee (left); Scotty Montieh,

His manager, who hurriedly departed for New York yesterday on receiving a telegram from Dundee's father, who is involved in a lawsuit.

Goodbye, Johnny.

## DUNDEE GETS A HURRY CALL BACK TO NEW YORK.

JOHNNY DUNDEE didn't stick around long drinking in the sweets of victory. He hardly got the bandages off his hands after the game from his father in New York, stating that the manager was involved in a law suit. Wherefore he proceeded to hit the pike for the railroad station and is now on his way to the Atlantic Coast.

It is somewhat doubtful if he returns. Johnny wants to come back and box any lightweight in the ring; in fact, he wouldn't have any serious objections to boxing them all at once.

But the difficulty is that the lightweight division seems to have run dry and there are no suitable opponents for him.

Although one of the gamest little fellows who ever stuck his feet in the ring, he is a real high-jumper. Dundee's boxing style is very popular in Los Angeles. He partakes much of the nature of an aeroplane.

With the departure of Dundee and his manager, the Rialto (whatever that is) loses one of its quaintest and most interesting characters. This is the little Scotchman—Scotty Montieh—who manages Dundee and who damed him with his Scottish ring name.

The boys are certain that "Gavvy" Cravath, right fielder of the Philadelphia National, will play in the major leagues in the National League, will win three or four games with them. Cravath and his wife and daughter arrived home a few days ago and are now at Laguna Beach, where Cravath is fishing. Schultz, the Vandine pitcher, who has been bought by Detroit, will winter at Laguna also. Last winter he bought a house there. Schultz may play with Santa Ana.

**HILL SAILS.**

STANFORD UNIVERSITY, Oct. 14.—W. W. Hill, who was chosen by the Stanford and California Intercollegiate Committee to represent the Invitational, sailed from Australis on October 4, accompanied by his wife, and is expected to arrive in San Francisco on October 16.

The boys are certain that "Gavvy" Cravath, right fielder of the Philadelphia National, will play in the major leagues in the National League, will win three or four games with them.

Cravath and his wife and daughter arrived home a few days ago and are now at Laguna Beach, where Cravath is fishing. Schultz, the Vandine pitcher, who has been bought by Detroit, will winter at Laguna also. Last winter he bought a house there. Schultz may play with Santa Ana.

The average fight manager is an almost inexpressible quantity of loud noise. Scotty is one of the two really interesting men on the business end of the "team."

In his boyhood days, Scotty was a bicycle racer of some renown in Scotland. On one occasion he fell into the hands of some dealers in prunes, who wanted to see him to his bicycle race.

Being a green country boy, he didn't quite realize what it all meant or why he was to lose the race.

"Nothing would please this committee more than to have a warrant sworn out for any entrant in this race who abuses your speed laws, either city or county, during practice," said Scotty regarding as the most gorgous entrant in regard to this matter, and when his eyes had ever fallen upon, almost paralyzed him.

They put him on his wheel and whispered the evil words of instruc-

tion.

Baseball

**Mr. Wad Doesn't Seem to Have Any Luck A-Tall at Duck Hunting!**

By Gale.

**ELL JAMES HAS LONGER REACH THAN FALKENBERG.**

"Spread Eagle" Span of Eighty-one Inches Is Unpassed by Any Man in Baseball—Length of Pitching Arm Exceeded Only by Johnson—Portland Should Clinch Pennant Today.

By HARRY A. WILLIAMS.

**E**LL JAMES, the most stridentious of the Portland pitchers, has the "spread eagle" reach of any baseball player. His pitching appendage is long so that he could easily measure the room and scuttle about without so much as a scratch or his wits from the waist up.

Bill Rodgers, field leader of the Beavers, being a brave man, will go after him to the Rogue River district at the conclusion of today's game, the result of the winter he will pass in Portland.

Koren, while his home is in Milwaukee, says that Portland looks good to him.

Hobby Davis will winter in the great city of Walla Walla, Wash., and may decide to whip a few aspiring lefties when time hangs heavily on his hands.

Claude Heery will return to Muncie, Ind., where he is said to be quite some lame baron.

Hill Speer has disposed of his extensive holdings, consisting of a bowling alley, and will be away the rainy period in Portland.

Irvin Higginbotham always poses as a guileless granger who wants to make a place of this policy will retire to his hometown in East Oregon.

"Ripin," Hagerman will return at once to Chicago there to have his whiskers for a few months. He will then thaw the locks of his nose and report for spring practice.

Bill Johnson, manager of Rodgers on his home hunt, and then while away the remainder of the winter in some part of California. As California has quite some length and breadth, the exact winter location of Bill is rather vague.

Gene Krapp, who is a sea-gar maker by trade, will endeavor to earn an honest penny by rolling a few cheroots in Detroit.

Bill Lindsay, who has a tobacco plantation at Aviston Churchill, N.C., will furnish Gene with "milk."

In addition to the raw material, Bill also raises excellent fine cut and a superior grade of horse plug.

**S**trictly Confidential.

"Dear Sir: One of the 'Tri' is an Angel fan, but the other two are very enthusiastic fans. Therefore we are anxious to know if Elmer Koester is going east next season.

Also H. Rowdy Elliott is going to be with Venison again.

"Two of the 'Inquisitive Tri.'

"Los Angeles."

The foregoing, being written in an unmistakable feminine hand, was viewed with great suspicion, but columns not in a matrimonial bureau. However, if the bitter truth must be known, Koester is to remain here and Koester is going east.

**TURK BEATS BANKS CALIFORNIA CAROMS.**

**G**uglielmo Bassani, known otherwise as the Turk, defeated George Banks at Hogan's room last night, the game being a new one with both Banks taking "California billiards." This is simply three-cushion billiards, held to three only, but allowing a choice of the two sets of balls at a time.

It is conceded by experts that Walter Johnson, of the Washington team, is the best player in the country.

To say that the German is a natural born billiard player would be to say nothing of the fact that he is already one of the specialist players in the business, can, however, be materially add to his skill by mastering the knack of holding the ball in the better before striking it.

Consequently, there is but one way to tell the Turk's secret, and that way is to pull his power of his hand to the long sweep of his arm.

Should he remain here, he will be in the process of being won over to the Turk's ways.

He is expected to attend the first of the World's Fair this afternoon.

Johnson is to be played, the former, for the first time since he has been up at the tail-end of this evening, probably to the Angels do the favor for twenty-four hours.

Johnson should be able to play, for the first time since he has been up at the tail-end of this evening, probably to the Angels do the favor for twenty-four hours.

Johnson has had many years in the business, can, however, be materially add to his skill by mastering the knack of holding the ball in the better before striking it.

Consequently, there is but one way to tell the Turk's secret, and that way is to pull his power of his hand to the long sweep of his arm.

**GUS EMBRACES A BASE-RUNNER.**

**Anorous Deed Lets Winning Run Across.**

**Lefty Leifeld Has a Very Bad Inning.**

**Nevertheless, the Seals Are the Victors.**

**IT DROVE WEE TO THE TIMES!**

**SAN FRANCISCO, Oct. 15.—(Exclusive Dispatch.)** It was chiefly because the Leftfield "finish" started earlier than usual and gave the Seals a chance to overtake it, that San Francisco topped the Oaks today, 4 to 2.

That and the quality of ball that the southpaw served up, for he was in rare form in all his innings, and even then would have escaped disaster but for an error at his back, the usually reliable Roy Corhan shooting a runner in the middle of the back with the ball, instead of throwing to the waiting base guardian.

Tobin, however, gave the Oaks a 2 to 2 lead, but the fielding of the Commuters in the tight spots was anything but up to standard, and the Seals worked their way through to victory with two runs that were chased home in the eighth.

**ABLES THERE.**

Harry Ables pitched a four-hitter game in the eight innings he worked, but the two bases on balls that he allowed ended rather disastrously for the Texan, for one of the four swats counted likewise in the gathering of the runs.

The Seals broke the ice with an earned run in the third. Tobin beat out an infield smash at the pitcher, after which had been retired, stole second and scored on McArchie's double to center.

The seventh was a lively inning all around. San Francisco with first out in added another run to their lone tally. Schaller walked and Downs sacrificed. Corhan laid down a hit toward third and beat the throw to second. Hartling picked up the ball and tried to throw the brewer which was short. Schaller meanwhile had rounded third and stood far from the bag. Ness, who had plenty of chance to throw Schaller out, instead of this, took the higher road and gave Schaller a chance to return to third. Cartwright forced Corhan at second. Schaller reaching the plate on the play.

**OAKS TAKE LEAD.**

Leifeld's badinning was the last half, as he beat out a hit toward third and Zieher fled to center. Ness doubled past Cartwright's sack and when Cook grounded to Corhan, the gun combed. The shortstop had an easy time of it, but instead of throwing to Cartwright, his Ness in the small of the back. As the ball bounded around the field both men scored and Cook stole third, while the shortstop, in his turn, got the ball back in front when Leard grounded out to second.

The game was tied in the eighth. Leifeld fanned out Tobin and went down, because as McArchie scratchs a single. They tried for the double steal which was quite successful. Hartling not only failed to land Tobin, but he let the ball get away from him. In the second motion he deftly held Tobin at third, for which piece of work Tobin was allowed to score by the umpire. On a passed ball, McArchie went to third and later was safe at the plate when Johnson hit down to Leard.

**SAN FRANCISCO.**

Baseball.

**HILL JAMES HAS LONGER REACH THAN FALKENBERG.**

*"Spread Eagle" Span of Eighty-one Inches Is Unpassed by Any Man in Baseball—Length of Pitching Arm Exceeded Only by Johnson—Portland Should Catch Pennant Today.*

BY HARRY A. WILLIAMS.

HILL JAMES has the most artfulious of any member of the Portland pitching staff. His reach is so long that he could easily throw the ball without so much as reaching his shoulder. He has a "spread eagle" reach of eighty-one inches.

Bill Speas, field leader of the Beavers, being a brave man will go after him into the Rogue River district to collect the pennant. The rest of the winter he will pass.

Kore, while his home is in Milwaukee, says that Portland looks good to him.

There will be no half-way measures for the Federal League has come to stay. We have the name of outlaws and we might as well have the game. We learned last season that we must have a higher class of players and have concluded that the only thing to do is to get men who have reputations as big league ball players.

"It will be war to the hilt with organized baseball from this time forth," Mr. Krause declared in the statement.

"There will be no half-way measures for the Federal League has come to stay. We have the name of outlaws and we might as well have the game. We learned last season that we must have a higher class of players and have concluded that the only thing to do is to get men who have reputations as big league ball players."

At the meeting November 1, officers for next year will be elected and it is stated that the circuit of the Federal League will be increased to eight cities, two of which probably will be major league towns.

Bill Speas has disposed of his extensive holdings, consisting of a bowling alley and will while away the rainy period in Portland.

Irv Higginbotham always poses as a quietish granger, but is a生力军 player of his policy will retire to his hometown in Eastern Oregon.

Clude Kerr will return to Mundia, Ind., where he is said to be quite some land baron.

## Cities and Towns South of Tehachepi's Top—Los Angeles County News

THURSDAY MORNING.

Pasadena.  
LIGHTED WAY  
EIGHT MILES.Ornamental Electrics Flash  
Along Los Robles.Sewer Talk Again Heard in  
Official Quarters.High School Betting Sports  
Can't Be Stopped.

PASADENA, Oct. 14.—The last ornamental electric light post to be set up on Los Robles avenue, between California street and Woodbury road, was put in place last night, completing a string eight miles long. Next Saturday night the wiring will be completed and the current will soon be turned on. This will be the longest row of lights that will go to make Pasadena one of the best-lighted cities of its population in the country.

South Orange Grove boulevard, where two years ago richly-ornamented bronze posts, each surmounted by an immense opaque globe, were installed, is now made thoroughfares outside of Pasadena. Similar street lights are being installed in Oak Knoll, another millionaire residential section; as quickly as possible, and the business streets have been lighted with cluster lights on ornamental iron posts for years.

The Los Robles-avenue lighting system, while not so elaborate as those of Orange Grove, however, or in Oak Knoll, in the style of the latter, is, by reason of its length, the street that will probably attract the most attention. It will become a favorite drive for automobileists in the evening and will serve to connect games. He has asked Superintendent

Oak Knoll and the Huntington Hotel with the fashionable residential district in Alameda and with the Foothill boulevard.

There is one detail of the improvement over which property owners on Los Robles avenue have not yet come to an agreement, and that is the matter of paint. Some favor the use of bronze paint and others a less expensive coating. The bronze paint, if used, will have to be varnished and given a good deal of trouble, but the majority seem to be in favor of it and it will probably be the paint applied.

## PROJECT UP AGAIN.

The proposed outfall sewer, to be constructed jointly by Pasadena, South Pasadena and Alhambra, is again under discussion. City Trustees D. S. Gates and W. S. Carter of South Pasadena held a long conference yesterday with the Pasadena City Commissioners and another conference will take place today, in which the members of the commission invited to take part. It is hoped by all that a definite plan agreeable to all three municipalities can be worked out.

There have been a number of meetings held recently and the proposed undertaking has been discussed from all angles. Now all concerned believe that the time has arrived to decide on definite steps if anything is to be done.

## A POCKET EDITOR.

A novel organization will be formed at the Pasadena High School at a meeting of the members of the commercial class to be held there today. It is to be known as the Pasadena Board of Trade. Not only do the pupils who are to become members of the organization help with the work of the school, but they will be invited to take part. It is hoped by all that a definite plan agreeable to all three municipalities can be worked out.

There have been a number of meetings held recently and the proposed undertaking has been discussed from all angles. Now all concerned believe that the time has arrived to decide on definite steps if anything is to be done.

## AFTER NEW MEMBERS.

Acting on the declaration of W. H. Day, the new general secretary of the Pasadena Young Men's Christian Association, that there are 1,000 men in the city who do not belong to the organization and who ought to be enrolled, the members of the association have divided themselves into ten campaign teams and are proving effective for the most strenuous hunt for new members they have ever made.

## GAMBLING IS CHARGED.

The High School boys do not appear in as admirable a light in view of the declaration of W. S. Grassie, a member of the Board of Education, that Joseph A. Rawles, for many years left the employ of the institution, owing to a necessary reduction in running expenses.

## THIRTY ATTEND WEDDING.

Miss Naomi Hoppe, well known in Pasadena, and her fiance, Dr. James Jones of Chicago, last night at the home of the bride's sister, Mrs. Frederick John Mills, No. 1022 North Lake avenue. There were thirty friends and relatives present and the ceremony was conducted by Rev. G. E. Cummings, pastor of the First Baptist Church. Mr. and Mrs. Jones will make their home in Chicago. Announcement of their engagement was made three months ago and the bride has been the toast of honor at several delightful social affairs given by her friends.

## ROAD TO RECOVERY.

That Lieut.-Gov. Wallace, who since last Monday has been at the Pasadena Hospital, where he underwent a serious operation, is on the mend, is to recover and will be able to return to his home in La Canada. In a few weeks, was the statement of his physician, Dr. Charles D. Lockwood, last night.

The Lieutenant-Governor's condition tonight is very favorable," he said. "He is much improved. I now consider him to be entirely out of danger."

Lieut.-Gov. Wallace was taken to the hospital suddenly from La Canada and the information that he was a patient.

Hotel Vista del Arroyo, Pasadena.

SANTA ANA NOTES.

SANTA ANA, Oct. 15.—William Devany of Old Newman, who has 190-acre ranch today to a Los Angeles firm for \$55,000. The ranch is set to sugar beets. It has been farmed for years.

Today the will of Mrs. Clementine Langenberger, an Anaheim pioneer, was filed for probate. The estate is valued at \$100,000, and is left mostly to children and stepchildren. There is left \$1,000 to the Catholic Church of Anaheim; \$1,000 to the city of Anaheim; \$400, with which a memorial fountain to Mr. and Mrs. Langenberger is to be erected.

Today there was presented to the Board of Supervisors by A. A. Mills of Anaheim a petition for the formation of a assessment district for highway between Anaheim and Fullerton. The State will pave a strip eighteen feet wide, and the district will complete the work to the edges of a two-lane street. Mills said that the district runs a quarter of a mile on each side of the highway, and that the voters are practically unanimous in favor of the project.

## NEW SCHOOL BUILDING.

MCKITTERICK (Cal.) Oct. 14.—Messrs. C. M. Small, E. E. Morgan and S. A. Geibner, trustees of the Olig public school district, have accepted the bid of Oscar Bros. of Whittier for the new school building. The building and after a contract has been signed, work on the structure will be commenced within a short time. There were four bids, the amount named being the submitted bid. Oscar Bros. being \$2450. The building is to be located close to the one now in use and will be well equipped and larger than the present house. The attendance is increasing, and the session has opened with more encouraging indications for the term.

ROLLERS

Hartshorn Rollers, either wood or tin, are the perfected result of over 60 years of continuous experiment in shade roller making. The Improved Wood Rollers require no tools for adjusting the window shades.

Sold by all leading dealers. Look for the Hartshorn signature.

Hartshorn

Schools Rhodes if nothing can be done to stop the practice.

Ridge, on the other hand, says that while better, if it is carried out, is something to be desired, with there is no way of stopping it, except by putting an end to the football games.

"No set of rules and regulations will stop it."

Mrs. S. W. Odell, another member of the board, suggested that the matter is one that should be handled by the student body, and as other members of the board agreed with her no action will be taken. The board will be presented to the students themselves and they will be put on their honor to see that the betting is discontinued.

INCREASED VALUATION.

A report made to N. G. Felker, secretary of the Board of Education, yesterday by the County Auditor shows an assessment of the Pasadena school district to be \$46,125,856. Last year the assessed valuation was \$42,264,960.

The Board of Education figures that the total tax necessary to carry out the proposed bond issue of \$156,000 will be less than 30 cents per thousand \$1000.

The total school tax this year in the Pasadena school district will be \$2 cents, as compared with \$1.92 last year.

The coming week is to be the time for the campaign. Special attractions have been arranged at the association building on North Marengo avenue and building new ones. Never before

in the history of the county has so much attention been paid to mountain roads.

As being laid out by the commissioners of the county, the roads which will be completed, reaching almost to every part of the county, even a highway across the desert all the way to Colorado, thus to become a part of the Trans-Pecos Highway.

Joseph A. Rawles, for many years

left the employ of the institution,

owing to a necessary reduction in running expenses.

TUESDAY ATTEND WEDDING.

Miss Naomi Hoppe, well known in Pasadena, and her fiance, Dr. James Jones of Chicago, last night at the home of the bride's sister, Mrs. Frederick John Mills, No. 1022 North Lake avenue. There were thirty friends and relatives present and the ceremony was conducted by Rev. G. E. Cummings, pastor of the First Baptist Church. Mr. and Mrs. Jones will make their home in Chicago. Announcement of their engagement was made three months ago and the bride has been the toast of honor at several delightful social affairs given by her friends.

ROAD TO RECOVERY.

That Lieut.-Gov. Wallace, who since last Monday has been at the Pasadena Hospital, where he underwent a serious operation, is on the mend, is to recover and will be able to return to his home in La Canada. In a few weeks, was the statement of his physician, Dr. Charles D. Lockwood, last night.

It is understood that the Salt Lake Canyon is also to move to move the bridge. These will be moved to the brink of the arroyo, while the Pacific Electric tracks will be placed six feet from the center line. It is believed that sentiment throughout the county is strong for the bond issue, it being realized that no other alternative exists.

Joseph A. Rawles, for many years

left the employ of the institution,

owing to a necessary reduction in running expenses.

TO FIX RATES.

With a view to rushing the fixing of new lighting rates the City Council has given the electric companies two weeks in which to file reports of the amount of road work done on mountain highways during the present year, nearly \$100,000 having been expended in improving mountain roads and building new ones. Never before

in the history of the county has so

much attention been paid to mountain roads.

Up to a couple of years ago the people were willing to put up with very few roads into the Sierras, in poor repair and with severe grades.

The increased use of automobiles, a better recognition of the resources of Tulare county's mountains, and the influx of tourists have attracted the advertising of the railroads to the present year.

The Council has thus far ignored the company's rate offered by the company, and will probably try to force a still lower rate.

After delay and other obstacles which hindered the progress of the work, it is now expected the electric lighting system will be completed and ready for an ornamental lighting system will be commenced throughout the business district. There has long been a demand for this improvement Fourth Street, which probably will be the first to receive the lights, the system to be gradually extended throughout the entire business district of the city, also possibly along some of the main arteries leading into the city from surrounding towns.

TO WORK PRISONERS.

Members of the Board of Supervisors went to Los Angeles today for a conference with the Los Angeles county board relative to working inmates of the prison. The board in this city is a serious problem. The Council has also received that made by the city with regard to the construction of a bridge at the intersection with the Salt Lake Railroad extension.

There are five main thoroughfares through the high Sierras in Tulare county. In the southern end of the county the entrance is via the California State Highway, which has been put into excellent condition by Supervisor Singleton. The latter is also building a new road to the springs which will have a low grade and which will be suitable for automobiles.

A little farther north is the entrance up the Tule River Canyon. The road up this way was built by the San Joaquin Light and Power Company, but in another year will be turned over to the county.

Hartshorn Rollers, which has been put into excellent condition by Supervisor Singleton. The latter is also building a new road to the springs which will have a low grade and which will be suitable for automobiles.

The old Millwood road to the Giant Forest, at cost of \$80,000, which within a few years will be turned over to the county, is also being put into excellent condition by Supervisor Singleton. The latter is also building a new road to the springs which will have a low grade and which will be suitable for automobiles.

The old Millwood road to the Giant Forest, at cost of \$80,000, which within a few years will be turned over to the county, is also being put into excellent condition by Supervisor Singleton. The latter is also building a new road to the springs which will have a low grade and which will be suitable for automobiles.
